FULL STACK ENGINEER • C# • ASP.NET • ANGULAR • REACT • TYPESCRIPT • WEB DEVELOPMENT

Professional Summary

Full Stack Engineer with hands-on experience in **ASP.NET** and **Angular**, delivering production-ready solutions for enterprise clients. Proven ability to build **end-to-end analytics systems**, integrate complex backend services, and apply **clean architecture** and **DevOps practices** in fast-paced environments

Technical Skills

Backend: C#,ASP.NET, RESTful APIs

Frontend: Angular, React, TypeScript, JavaScript

DevOps: Docker, Kubernetes, CI/CD

Data & Others: Mongo,SQL, Python (Pandas, NumPy), D3.js

Tools: Git, GitHub, Jira,

Work Experience

Full Stack Developer

September 2025 - April 2026

Inscale Asia Sdn Bhd | SEB ADC | Worked on pension and insurance systems for a Scandinavian banking client.

- Built a **reusable analytics solution** for a microfrontend platform, standardizing tracking across 5+ apps; cut **integration effort by ~40%**, and **improved reliability** with **Dead Letter Queue-based** processing.
- Contributed in developing a **Redis NuGet package**, implementing **resilience and circuit breaker patterns** to reduce **excessive logging to Splunk** and **optimize monitoring costs**.
- Assisted in **integrated a new insurance administration system with existing digital channel platform** to visualize pension and insurances for Swedish customers
- Setup **CI/CD pipelines** using **Github Actions** and **prepared Kubernetes manifests** with **Kustomize** to support **GitOps-based multi-environment deployments via ArgoCD**.
- Built and maintained comprehensive **unit tests (xUnit) for .NET services** and **assisted with end-to-end testing (Playwright)**, driving **>80% coverage (SonarQube)** and **reducing regressions**.
- Investigated and resolved defects identified during QA testing, **reducing turnaround time** and collaborating closely with QA to ensure **faster and more reliable releases** nd improved application stability.
- Collaborated with **Sweden-based domain specialists** and cross-team stakeholders in a **multinational environment** to understand pension and insurance workflows, translating complex requirements into scalable technical solutions.
- Applied **clean architecture principles** and participated in **code reviews, knowledge transfer sessions, and architectural design discussions** within an enterprise development environment.
- Participated in **Agile ceremonies**, using **Jira** to manage tasks, track progress, and support team workflow.

Mobile Developer Intern

March 2025 - July 2025

Millennium Radius Sdn Bhd | Worked on analytics and data solutions for Johor Palm Plantation

- Contributed to a **Business Intelligence dashboard** for tablet devices used by **board-level executives**.
- Built responsive and high-performance UI components using **React Native, Expo, and D3.js** for real-time data visualization.
- Integrated frontend features with **JavaScript-based REST APIs** to deliver dynamic and real-time data insights.
- Assisted in **debugging and performance optimization** across mobile and web platforms.
- Collaborated with data engineers on **ETL pipelines (AWS Glue, Python)** to ensure accurate data ingestion and quality.
- Performed **data profiling and anomaly detection** using Pandas, NumPy, and machine learning techniques (e.g., Isolation Forest).
- Automated data quality reporting and email delivery via SMTP, **saving ~6 hours per week** and improving reporting efficiency.
- Co-designed a bookmarking feature that **improved executive efficiency** and streamlined frequent data access.
- Worked in a **cross-functional Agile team**, using **Git, GitLab, and CI/CD workflows** for version control and collaboration.

Education

Bachelor of Information Technology (Hons.) in Software Engineering

Universiti Kuala Lumpur Malaysian Institute of Information Technology

Diploma in Computer Science

MARA Professional College

Languages

Malay (native)

English (fluent)
